THARUNKUMAR K

JAVA DEVELOPER | APPLICATIONS DEVELOPMENT PROGRAMMER ANALYST | SDE

Dharapuram, Tamil Nadu, India | tharunkumark42007@gmail.com | +91 87609 64830

GitHub: Tharun4743 | LinkedIn: tharunkumark4743 | LeetCode: Tharunkumar__K | Portfolio: tharunkumark4743

PROFESSIONAL SUMMARY

Applications Development Programmer Analyst and Java Developer experienced in building scalable client-server systems, production Spring Boot microservices, and high-performance database-backed applications. Proficient in **Java (JDK 17/8)**, **Spring Boot**, **RESTful Web Services**, **SQL (PostgreSQL, MySQL)**, and testing frameworks (**JUnit 5, Mockito**). Delivered enterprise recognition systems at Infosys Springboard and placement workflow platforms at Neura Global. 1st Place National Hackathon Winner and 2× SIH Nominee with strong expertise in system debugging, object-oriented design, and agile Git workflows.

TECHNICAL SKILLS

Languages:	Java (JDK 17/8), SQL (PostgreSQL, MySQL), TypeScript, JavaScript, Python, C, C++
Java & Enterprise:	Spring Boot, J2EE Principles, RESTful APIs, Hibernate/JPA, Apache PDFBox, Node.js, Express.js, Socket.IO, WebSockets, Microservices Architecture
Databases & Storage:	PostgreSQL, Supabase, MySQL, SQLite, Redis, MongoDB, Relational Schema Design, ACID Transactions, Query Optimization
Testing & Code Quality:	JUnit 5, Mockito, Test-Driven Development (TDD), System Debugging, Postman API Testing, Code Reviews
DevOps & Tools:	Git, GitHub Actions (CI/CD), Docker, Maven, Gradle, Linux/Bash, Vercel, Render
Frontend & UI:	React 19, Next.js 15, Vite, Monaco Editor, Tailwind CSS, HTML5, CSS3

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology — VSB Engineering College, Karur, TN **2024 – 2028**

Cumulative GPA: **8.5 / 10.0** | Expected Graduation: **May 2028**

PROFESSIONAL EXPERIENCE

Software Development Intern — Infosys Springboard **11/2025 – 01/2026**

- **Enterprise Recognition Platform:** Developed **StarWall**, a peer-recognition, achievement tracking, and analytics dashboard adhering to agile Git branch workflows and software engineering standards.
- **Modular Architecture & TDD:** Implemented modular microservices and automated test suites using **Java 17** and **JUnit 5** under Test-Driven Development (TDD), ensuring high code quality and preventing regression defects.

Full-Stack Development Intern — Neura Global **06/2026 – 07/2026**

- **Campus Recruitment Platform:** Engineered **CampusConnect**, an enterprise recruitment lifecycle system managing 5-stage qualification funnels for **500+ candidate profiles** with 4-tier Role-Based Access Control (RBAC) security.
- **System Process Automation:** Automated semantic screening pipelines using Google Gemini AI and integrated real-time Socket.IO event notifications, reducing administrative manual auditing effort by **70–80%** with zero scheduling collisions.

KEY APPLICATION PROJECTS

AURA — Offline Enterprise Knowledge & Retrieval Engine **2026**

Java 17, *Spring Boot*, *React*, *Electron*, *SQLite*, *ChromaDB*, *Apache PDFBox*, *Ollama (LLaMA 3)* `[GitHub]`

- **Desktop-Server Client Architecture:** Engineered 100% offline workstation with **Spring Boot** and **Java 17** backend, performing high-concurrency document text extraction via **Apache PDFBox** and vector indexing in ChromaDB and SQLite.
- **Secure Air-Gapped Governance:** Enforced loopback network isolation and local LLM execution via Ollama, strictly safeguarding institutional assets and confidential documents with zero external cloud egress.

VSBEC IT Vault — Academic Task Manager & Compiler Platform | *Top 50 SIH Nominee* **2026**

React 19, *TypeScript*, *Node.js*, *Express*, *PostgreSQL*, *Monaco Editor*, *Docker* `[Demo]` | `[GitHub]`

- **Campus Production Adoption:** Deployed and actively used daily by **365+ enrolled students** across 6 sections for assignment submissions, proof verification, and automated LeetCode/GitHub activity synchronization.
- **Isolated Compiler Sandbox:** Built multi-language execution runtime (**Java 17, C, C++, Python 3**) with isolated child-process jails, 4-second timeout traps, server-side test evaluation, and a 3-tier approval hierarchy.

Work Suite HRMS — Enterprise Workforce & Payroll Platform | *National Finalist*, *Odoo × NMIT Hackathon* **2026**

React, *TypeScript*, *Node.js*, *Express*, *PostgreSQL*, *Role-Based Access Control (RBAC)* `[Demo]` | `[GitHub]`

- **Enterprise Business Applications:** Built workforce management platform featuring two-level RBAC (Admin, HR Manager, Staff), automated monthly payroll tax calculations, biometric attendance logging, and leave approval state machines.
- **Relational Integrity & Auditability:** Designed normalized PostgreSQL relational schemas with ACID guarantees, role-scoped API security, and transparent audit logging for corporate compliance.

HONORS & ACHIEVEMENTS

- **1st Place National Winner** — *Code Thugs 2K26* (National Hackathon Champion for GOAT Collaborative IDE; ₹5,000 prize).
- **National Finalist** — *Odoo × NMIT Bangalore Hackathon 2026* (Grand Finale qualifier at NMIT Bangalore for Work Suite HRMS).
- **Top 50 / 300+ Teams** — *Smart India Hackathon (SIH 2026 & SIH 2025)* (Official Central Portal Nominee for VSBEC IT Vault).
- **3rd Prize Winner** — *8-Hour AI/ML Hackathon 2026* (Department of AI&ML for FINDORA AI multimodal correlation system).
- **National Finalist** — *India Innovates 2026* (National Innovation Showcase).

VERIFIED CERTIFICATIONS

Software & Systems:	Infosys Springboard Internship Completion Certificate; Cisco Intro to IoT (Credly); TCS iON Career Edge; Salesforce Admin
Cloud & AI:	Google Cloud: Responsible AI Practices, Intro to Large Language Models, Vertex AI Prompt Design; Tata GenAI (Forage)
